## SOLUTIONS FOR A MOBILE MASTERCHEF

You may be far from home, but that doesn't mean you can't enjoy a delicious home-cooked meal using local ingredients. Dometic helps make your journey even more pleasurable with a range of innovative solutions for your kitchen. One of the challenges of cooking on the move is having enough room to do the job. Making the most of very little space is something our designers think about a lot. That's why our hob and sink combinations with a glass lid are so popular. You lift the lid up when it's time to cook or clean – and when the lid is lowered you have an extra surface for preparation. Smart design.

The Dometic Slide Out Kitchen were a winner of the 2018 iF Design Award, a world-renowned design prize. 63 independent experts from all over the world were impressed by the Slide Out Kitchen's versatile functionality and lightweight aluminium construction. For 65 years, the iF Design Award has been recognised as an arbiter of quality for exceptional design.
